

Personal Details

- Mao ShuoJie/Male/1988
- Master of Bioinformatics/Hokkaido University
- Years of Working : 3 years
- Position Applied: Machine Learning Engineer
- City: Shanghai Shenzhen

Contact Information

- Phone: 15850515375
- Email: Mao_at_ibio.jp
- Wechat: harrymao

Skills

- Programming language: R programming, Octave, C, VBA, Java, Python
- Web develop: PHP/HTML5/CSS
- DB: MySQL/Oracle
- Version control system : Svn/Git
- Unit testing: Selenium IDE

INDUSTRY EXPERIENCE

Shanghai QiHua system integration Co., Ltd.

(Aug 2017 ~)

Technical support

Managed requirements for clients. Prepared system design for various client projects.

IBM

(Sep 2015 ~ July 2017)

eMusc project

Provide technical customer support web applications using CSS, HTML, JavaScript. Improved test automations. Implemented user behavior tests.

Sunrise team

Developed several integrations between internal applications using Lotus Notes/Domino APIs allowing smoother workflows and better coordination and collaboration between departments. Provide solutions(VBA +IDE) to improve the workflows. Helped team to adjust new internal system. Automated several processes, reducing human error.

Academic activities

- ShuoJie Mao, Kohji Hotta, Katsuhiko Mineta, Toshinori Endo. Cell type specific Raman spectrum based classification by machine learning. The 3th Informatics in Biology, Medicine and Pharmacology
- ShuoJie Mao, Kohji Hotta, Katsuhiko Mineta, Toshinori Endo. Cell specific pattern based classification by machine learning. The 36th Annual Meeting of the Molecular Biology Society of Japan
